Balance in favor of the town	3,903 14
	$4,717 77

Owing to a combination of favorable circumstances we are enabled to report the town as free from debt and a surplus of $4,717.77, notwithstanding the fact that the sum of $2,500 has been expended for the erection of a new school house at Union.

As no serious rains were experienced during the summer of 1903, all of the $2,500 appropriated for highways was not expended, there being a balance of $478.22 in this department and included in the surplus of the town's finance. But we would recommend that the same amount as last year be appropriated for 1904, as there are several bridges which will require attention the present season, also numerous culverts to be rebuilt in a

more substantial manner, which taken with our nearly one hundred miles of highways to be kept in a fairly good condition to satisfy the demands of the travelling public, will not be an excessive amount to meet the necessary expenses to accomplish this purpose.

During the past year the sum of $7,411 has been expended for school purposes, nearly two-thirds of the whole amount raised by taxation. Of this sum $2,500 was expended for the new school house at Union. This was the cost of the building and the foundation upon which it stands. The lot was a gift to the town from Mr. Taft of the building committee. As there was no appropriation for heating and furnishing the building, Mr. Taft advanced the sum of $501.93 for this purpose, that the town might have the benefit of the building for school purposes this year. The amount required by law to be raised for school purposes this year will be $2,190, an increase of $186 over that of last year, and it remains for the tax payers themselves to say what sum in addition to that required by law shall be raised. The amount last year in addition to that required by law, that being $2,004, was $1,500, making a total of $3,504 raised by taxation for school purposes alone.

Owing in a measure to the prosperous conditions of the town, our pauper bills have been small, $535.28, more than half of which being paid by the county. And the absence of many contageous diseases, which are very expensive, has also helped to increase our surplus.

As the aforesaid surplus is considerably more than is necessary for the transaction of the town's business, we would recommend that the appropriation for Town Ex-

penses be made from this sum, thereby reducing the surplus to about $2,000, which amount we find is sufficient as a working capital to transact the ordinary business of the town.

We earnestly desire and recommend that each and every voter give careful thought and consideration to the matter of appropriations to be made for the ensuing year, realizing the fact that it is the voters themselves, and not the selectmen, who are responsible for the rate of taxation, as upon the former devolves the right of voting the amount of the appropriations, and upon the latter the authority to raise the amount of said appropriations by taxation. The valuation of the town will be considerably less than last year, owing to the removal of several large timber lots, consequently it behooves every voter of our town to give the subject of appropriations considerate attention.

Report of School House Building Committee.

The committee elected at the last town meeting to build a school house at Union, upon looking over the situation, found that they were unable to secure the most desirable site for the building, and the only available land seemed to be that in the Merrill pasture, where the school house now stands.

The building is a one-story, hip-roof, 30x55 ft., with cupola; it has two recitation rooms, each 30x20 ft., capable of seating 40 scholars each, and corridor eleven feet wide with front and back entrance. There is a teacher's room on the back side of the school house opening out of the school rooms. The inside is finished throughout with hard pine, filled and varnished two coats, and hard plaster, tinted. The foundation is four feet of stone wall and three feet of brick work above the grade. In digging the cellar we unearthed enough rock to build a wall strong enough for a brick building.

The foundation, building and grading cost $2561 74; heating $185 34; desks and chairs $254 85.

The lot is about 8½x14 rods, and still needs fencing and grading, also about 100 feet of bank wall.

Above the wainscoting is three feet of special plaster for blackboards, and the committee have arranged with a party to complete the work, but as yet it is unfinished.

There is no water supply for the school, but this can be done at a moderate expense.

W. M. LORD,
ARTHUR L. TAFT,
GEO. W. DREW.

REPORT OF BOARD OF HEALTH

To the Selectmen and Citizens of Wakefield:

During the past year one case of typhoid fever has been reported; also one case of scarlet fever, with recovery in both cases.

SCHOOL REPORT

BOARD OF EDUCATION

The School Board during the past year, have been very fortunate in securing first-class teachers, who have worked earnestly, and manifested great interest for the advancement of the scholars in their charge.

It is very desirous that the School Board have the co-operation of the parents in making our schools a success, manifesting an interest by sending their children, and seeing that they attend school every day while it is in session.

We kindly invite every parent, or any one interested in the welfare of the pupils, to visit the schools as often as possible.

These visits will greatly encourage the pupils, and the parents can see for themselves how our schools are conducted.

During the past year we have heard many comments as to the amount expended for school purposes.

We had 313 pupils registered in our several schools during the last school year.

The total expense for each child was 52 cents per week, or $14 56 per pupil for the school year of 28 weeks.

We think that the school year should be at least 30 weeks in length, and we recommend that the appropriation be increased this year.

Respectfully,

P. T. HASKELL,
H. B. TUTTLE,
L. E. WIGGIN,
School Board of Wakefield.
